Abstract (Basic): FR 2618670 A

Compsns. for mouth and dental disorders contain essential oils from
cinnamon, lemon, cloves, oregano, savory, and thyme.

The oils are pref. used in the pure state and in equal quantities.
They may be formulated as toothpastes and as chewing gums contg. 0.5-1%
of the oils, together with conventional excipients.

USE/ADVANTAGE - The compositions have an analgesic,
anti-inflammatory, anti-infectious, antipyretic, antiviral, vasomotor,
cicatrising, decontracting and repairing action and are suitable for
the treatment of a wide variety of paints, abcesses, cellulitis,
erythemas, ulcerations etc connected with the mouth and teeth. The
compsns. have a very good penetrating power, giving a very fast and
effective action. There is synergism between the six components.
